

123456**LINE®**

Measuring Instruments Made in Taiwan

Manufactured under Japanese collaboration.

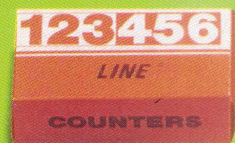

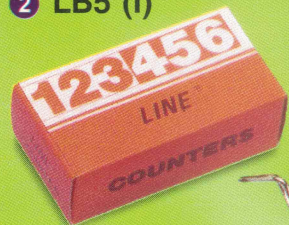

Line products are manufactured under the highest standards of quality control to produce most accurate and systematic measuring instruments.

We take care in providing full warranty for our products manufactured under Japanese design and collaboration.

Our measure guides for road measuring are portable with an extremely strong body fitted with a counter and an adjustable Aluminium folding handle. These are packed in a handy carry bag for easy handling.
